The (---2---) teacher saved thirty students, where he himself was (---3---) in the face and around his head. He (---4---) the students out one by one when the door was closed and he had to (---5---) a lot to take himself out of the room. His (---6---) were so hard and finally he died on July 18, 2012.

1.	2.	3.	4.	5.	6.
----	----	----	----	----	----

## E: Reading

**13- Read the passage and then answer the following questions: (2.5 points)**

Some people prefer to provide help and support directly to those in need. However, others prefer to give money to national and international charity organizations. Giving money to those in need can be a personally good experience, but there is a choice between donating nationally and internationally through charities or giving directly to those around you.

One of the advantages of providing direct support is that you can know exactly how your money is spent. Another **benefit** is that you can see the impacts on those you are helping, which can lead not only to great personal happiness but also to respect from others who appreciate the work you do.

There are advantages in giving to charities that are national and international. First and the best is helping in problems of global importance, such as curing diseases and human rights or helping those who are in bad environmental events like earthquakes and floods.

In conclusion a person should make their own choice in helping others. The important point is that we continue to give to those who are more in need than ourselves.

**1.** What can it lead to when you see the impacts on those you are helping?

1. ....

**2.** What is the important point in helping others?

2. ....

**3.** What is **the closest synonym** for the word “**benefit**”?

a. experience	b. advantage	c. choice	d. effect
---------------	--------------	-----------	-----------

**4.** Helping people in bad environmental events has the global importance. **a.** True **b.** False

**5.** All people feel great personal happiness when they help others. **a.** True **b.** False

## 14- Read the passage and then choose the best items: (2 points)

The size and shape of your ears show your character more than any other part of the face. Other parts of the face change shapes as we get older, but ears do not change their shapes. They only change in size.

Reading people's character from their ears is a very old science. In the past people thought that a person's ears with color were dangerous. They also thought that the shape of the ears showed if a person was musical or not. Today, too many people believe that the size and shape of the ears help you know if a person is musical. Ears are all different, and each different thing has a meaning.

Next time you look at a person, see if his or her ears are large, medium-size, or small. Look at the lobes. Ears that are always red mean that a person may get angry easily. Ears that are always cold and nearly white color mean that a person has a nervous character.

1. When we grow up, -----.

a. our ears will not change in size	b. our ears will be the same size
c. our ears will get colder	d. our ears will not change in shape

2. If someone's ears are red, it means -----.

a. he/she is a kind person	b. he/she is very happy
c. he/she may get angry easily	d. he/she drinks a lot

3. If you look at someone's ears, the right way to see -----.

a. his face, ears and nose	b. the size, color and shape
c. his mouth, eyes and nose	d. the hair, eyes and color

4. How can we find out a person has a nervous character through his/her ears?

a. When they are cold.	b. When they are medium-size.
c. When they are not white color.	d. When they are musical.
