متن زیر را بخوانید و به سوالات پاسخ دهید

Microbes are really wonderful. They are everywhere. Some microbes make you sick but most others keep you healthy and even help you fight diseases. Bacteria and viruses are two important types of microbes. Bacteria are important and very small. They have only one cell. They live everywhere. Viruses are among the smallest microbes. They can't live on their own. They usually attack you and make you sick.

31. Write two important types of microbes:.....
32. How many cells do the bacteria have?.....
33. Microbes are not everywhere. True..... false.....
34. Viruses are bigger than bacteria. True..... false.....
