M	<p><b>Read three below texts carefully and then answer the questions</b></p> <div style="border: 1px solid black; padding: 5px; margin-bottom: 10px;"><b>Passage 1</b></div> <p>Pandas are an endangered animals. These beautiful animals live in bamboo forest of China. Humans destroy these forests recently. Pandas do not have any place to live or anything to eat. There are very few pandas alive now. The Chinese are trying to make bamboo forests for pandas. They ask everyone in the country to help them.</p> <p><b>Put True or False</b></p> <p>1. There are many pandas alive now. (    )</p> <p><b>Answer the following questions.</b></p> <p>1. Who destroy forests? .....</p> <p>2. Where do pandas live? .....</p>			2.5															

**Passage 2**

There are animals living all around us. We can see animals in all sorts of places. We see animals in parks and in our homes. Another place to see many animals is at a zoo. Zoos have zookeepers to take care of the animals which live there. Zookeepers work hard to keep animals happy and healthy. Healthy animals can live for a very long time.

One group of the same kind of animals can die out if people hunt too many of those animals. Normally before this happens, we put those animals on a special list. The name of this list is the "endangered species list". This list helps people know the need to protect the animals and care for things in nature. Animals are endangered when there are few of a species left in the world.

**Put True or False**

1. We can see animals everywhere. ( )

**Answer the following questions.**

1. Which animals can live longer?.....  
 2. When are animals endangered?.....

**Passage 3**

Penguins are amazing birds. They go on a very long trip every year. Hundreds of penguins together and walk more than 100 kilometers. They walk to find a safe place for the mothers to lay eggs. Fathers take care of the eggs and mothers walk to the sea to find food for their chicks. A chick is a baby bird. Fathers keep the eggs on their feet because it is too cold on the ice. After 64 days the baby birds come out the eggs. When the chicks are 4 months old, the parents leave them to take care of themselves, and they return to the sea.

**Put True or False**

1. Mothers find food for their babies. ( )  
 2. Penguins swim more than 100 kilometers. ( )

**Answer the following questions.**

1. Why do father keep the eggs on their feet?.....  
 2. Are Penguins endangered animals? Why?.....
