Part D : Reading (4 points)

۶. متن زیر را بخوانید و به سوالات آن پاسخ دهید. (۲نمره)

### No Pain No Gain

Human knowledge develops with scientists' hard work. Many great men and women try hard to find facts, solve problems and invent things.

Some of these scientists did not have easy lives. But they tried hard when they were working on problems. They never felt weak when they were studying. They never gave up when they were doing research.

There are great stories about scientists and their lives. One such a story is about Thomas Edison. As a young boy, Edison was very interested in science. He was very energetic and always asked questions. Sadly, young Edison lost his hearing at the age of 12. He did not attend school and learned science by reading books in the library himself.

When he grew up he worked in different places, but he never lost his interest for making things. Edison was famous for doing thousands of experiments to find answers to problems. He said, "I never quit until I get what I'm after". Edison had more than 1,000 inventions and was very successful at the end of his life.

Many great names had stories like this. But the key to their success is their hard work and belief in themselves. If you want to get what you want, work hard and never give up.

1. What was Edison like ?

- |          |                |
|----------|----------------|
| 1) easy. | 2) energetic.  |
| 3) hard. | 4) successful. |

2. Edison lost his .....

- 1) interest for making things.
- 2) hearing at the age of 12.
- 3) answers to problems.
- 4) interest for doing thousands of experiments.

True or false?

3. Edison had 1,000 inventions.      T     F

4. Some of these scientists did not have hard lives.      T     F

5. If you want to get what you want, never work hard.      T     F

6. The key to the scientists' success is their belief in themselves.      T     F

۷. متن زیر را بخوانید و به سوالات آن پاسخ کامل دهید. (۲نمره)

## How to be a good traveler

Travel is about visiting new places and meeting new people. When visiting a destination, a traveler should take care of people, places and cultures. So, before any travel, we must pay attention to some points. First, we must read as much as possible about the main tourist attractions we are going to visit. Searching the Internet is an easy way to know about them. Also, learning a few words and phrases of the local language can be very useful, especially when we meet new people there. When we meet local people, we must not forget that we are guests! So, we must respect their way of living. When visiting historical and especially holy places, we must respect them, too. If we visit natural places such as lakes, forests and deserts, we must protect the plants and wild animals. In this way, every travel can be a great experience for us.

1. Must we respect the local people's way of living ?

.....

2. What should a traveler take care ?

.....

3. Can the traveler destroy natural places ?

.....

4. May you learn a local language ?

.....

## Best of luck
